CROSSCERT FINAL NEWSLETTER

NOVEMBER 2024

Download Our Main Results Publication!

Towards Reliable, Practical, and People-Centred European Energy Performance Certification of Buildings

We proudly present the summary of results elaborated over the course of the last 3,5 years. This is the final summary publication of the crossCert project. You can learn about technical

guidelines for developing EPCs including assessment methodologies, quality control procedures, the performance gap, the path towards next-generation EPC metrics as well as ways to increasing the value of EPCs by making EPCs more people-centred. We also explore if and how harmonising EPCs in Europe could work by recommendations based on our cross testing results, as well as detailed analysis on how quality control frameworks can be standardised whilst allowing for country-specific flexibility.

Final Webinar Recording

The final webinar of crossCert took place on the 21st of november presenting the results of the 3,5 years long research project. The recording is now available on the project website alongside with the downloadable presentation and the Main Results publication of the project.

The crossCert Journey

Understanding Energy Performance Certificates (EPCs): A Crucial Tool for Awareness and Improvement

In today's world, where sustainability and energy efficiency are becoming increasingly crucial, the significance of Energy Performance Certificates (EPCs) cannot be overstated. EPCs serve as a vital tool for understanding and improving energy efficiency in buildings, playing a pivotal role in raising awareness and facilitating structured discussions on the topic.

What exactly are Energy Performance Certificates (EPCs)? Essentially, an EPC provides a rating for a building's energy efficiency, ranging from A (very efficient) to G (least efficient). It outlines the current energy efficiency of a property and provides recommendations for improving it. But beyond this basic definition lies a wealth of benefits and implications that affect various stakeholders.

Towards a Sustainable Future

So long, crossCert!

The crossCert Team says goodbye at the end of the project. Thank you for following us, for engaging with us, supporting our stakeholder engagement efforts and following the project results. We hope that our paths cross again in the future.
Goodbye!
